Forecast For Highland & Eilean Siar
Issued by Met Office Aberdeen
at 1600 on Thursday 29 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cloudy tonight with patchy rain and some coastal fog.

This Evening and Tonight:
A few showers possible across East Highland this evening. Otherwise a mostly dry and rather cloudy night, some clear periods in the southwest at times. Minimum temperature 12 deg C (54 deg F).

Friday:
North staying mostly cloudy with the odd light shower. Some sunny intervals developing across the southwest, perhaps with an afternoon shower otherwise mainly dry. Maximum temperature 19 deg C (66 deg F).

Outlook for Saturday to Monday:
A mainly dry few days with some sunny intervals, an odd light shower possible across the north.
